Objective

I was seeking a challenging position in a dynamic environment where I could leverage my expertise in Automation Anywhere, MySQL and JavaScript to drive business results and advance my professional journey.

Professional Summary

Experienced RPA Developer with over 2 years and 7 months of hands-on experience in Automation Anywhere 360 and v11, specializing in designing, developing, and maintaining automation solutions.

Proficient in Task Bots, Excel-based databases and SAP with a strong track record in automating SAP processes including invoice creation, sales order creation, export checking, and outbound logistics.

Skilled in Web-Based Automation, including extracting and organizing attendance data from the Beehive website, ensuring efficient distribution to respective departments.

Completed a 6-month Internship at DESPA Technologies Ltd., focusing on Angular frameworks, contributing to the company's paperless initiatives through the design and implementation of web forms using NestJS and TypeOrm.

Work Experience

RPA Developer
Sunjewels Pvt. Ltd.
August 2021 – February 2024

- Developed and maintained RPA solutions using Automation Anywhere 360.
- Automated SAP processes, enhancing operational efficiency and accuracy.
- Implemented web-based processes, improving data management and distribution.

Internship
DESPA Technologies Ltd.
January 2021 – June 2021

- Focused on Angular frameworks and contributed to the development of web forms.
- Worked with NestJS and TypeOrm to support the company's transition to paperless operations.

Key Skills

- Automation Anywhere 360
- MySQL
- JavaScript
- HTML, CSS
- Excel
- JIRA

Projects

1. **Sales Order Creation in SAP (AA360)**

   - Converted PDF files to Excel, compared data, logged into SAP, and generated sales orders.
   - Utilized SAP packages, Automation Anywhere tools, and error handling to streamline the process, reduce errors, and improve efficiency.

2. **Export Checking Process (AA360)**

   - Logged into SAP, extracted data, performed calculations, and sent email notifications.
   - Automated the comparison of metal weights in jewelry, minimizing errors and streamlining the export process.

3. **HR Attendance Portal (AA360)**

   - Retrieved and organized attendance data from the HR Beehive portal, segregated by departments.
   - Automated email notifications for pending approvals, improving departmental coordination.

4. **Angular Forms**

   - Designed forms using Angular, NestJS, and TypeOrm, integrated with MySQL.
   - Contributed to paperless initiatives by creating efficient digital forms.

College Projects

- Developed an e-commerce platform using PHP, HTML, CSS, and Bootstrap, with MySQL backend.
- Enabled users to purchase products online and monitor order statuses.

Education

- **Master of Computer Application**, Veermata Jijabai Technical Institute, Mumbai (2018 - 2021)
- **Bachelor of Computer Application**, Government College, Himachal Pradesh (2014 - 2017)

Personal Details

- **Date of Birth:** April 18, 1995
- **Marital Status:** Married
- **Nationality**: Indian
- **Languages:** Hindi, English
- **Current Address:** Mohali
